## POETRY.

### WE'LL GIVE POOR MA THE BREAD.

**Song and Chorus.**

WORDS BY J. WARREN WATSON.

1. Diseases and want had sadly chang'd
The mother once so fair,
Unconsciously she whisper'd food!
There's food? O tell me where!
Her child bent o'er and caught her words;—
She turn'd away and said:
"O Nellie we will do without
And give poor ma the bread!"

CHORUS.

Have faith in Him who rules the wave
And bids the thunders roll:
For of its gloom He'll rob the grave
And those who weep console.

2. The moon has twice shone down upon
The meadow's placid streams,
And twice has Georgia's noon-day sun
Shot forth its torrid beams,
Since Alice with averted face,
And heaving bosom, said:
"Oh Nellie we will do without
And give poor ma the bread!"

CHORUS, Have faith, etc.

3. Beside their cherish'd parent's couch
Now tenderly they kneel;
And round her neck their little arms
Affectionately seal.
And tho' her soul from earth has fled
Those childish voices cry,
"Please ma look up once more and smile
And say you will not die!"

CHORUS, Have faith, etc.

4. No kindred tie like filial love
E'er made life's pathway bright!
'Tis as the beacon-light that guides
The storm-toss'd ship at night.
'Twas stronger than dread famine's pain
With her who kindly said:
"Oh Nellie we will do without
And give poor ma the bread!"

CHORUS.—Have faith, etc.

SOUTH PLYMOUTH, Mich., 1867.

From the Scientific American.

### The Final Fate of the Universe.

If two bodies were placed in space without any force acting upon each other than their own gravity, they would immediately start toward each other, and would rush together. The sun and planets which constitute the stellar system to which our solar system belongs are prevented from running together into one mass by their revolutions about each other. The revolutions of the planets around our sun, and of the satellites about their primaries, have been ascertained with that wonderful precision which is the just pride of astronomical science, and astronomers are now engaged in the sublime problem of unraveling the revolutions of the countless cluster that make up our stellar system. Already the cluster of the Pleiades is indicated as the proximate locality of the center around which our sun, with his attendant planets, is sweeping his vast orbit; and it is suggested that it is probably the common center of the orbits of all the suns of our stellar system.

If the force of gravity extends across the inconceivable spaces which separate the several stellar systems of the universe, those systems must rush together unless they are held apart by revolutions around each other.

If light were an emanation, as held by Newton, the spaces between the solid bodies of the universe might be absolutely empty; and, in that case, the revolutions of the bodies around each other might go on forever. On the other hand, if light is a vibration in a subtle fluid, the fluid might obstruct the motions of bodies revolving in it, and they must finally come together in one mass. The experiment so ingeniously devised by Arago, and carried out with such honorable regard for the fame of its designer by Messrs Foucault, Fizeau and Bereque, to determine whether there is a difference in the velocity of light in its passage through air and water, has demonstrated that light is a vibration. It follows from this that, as far as light extends, space is filled with a material fluid, which resists the motion of bodies revolving in it; and bodies within this space must gradually wind their way inward and ultimately come together into one mass.

The moon must be drawing slowly nearer and nearer the earth, and the two bodies, in the far distant future, will come together. The solid crust of the earth will be broken up by the shock, an immense quantity of heat will be generated by the destruction of the moon's motion, and the two bodies will fuse together into one molten globe. As the new and enlarged earth is cooled upon its surface, a second series of geological deposits will be constituted, accompanied, perhaps, by strange and inconceivable forms of animal and vegetable life.

At the same time, the earth is winding its way inward toward the sun, and must ultimately fall, an inconsiderable pebble, into the fast glowing mass. The same fate awaits all the planets, and our solar system must one day be but a single globe. When that may be covered with a multitude of inhabitants, and astronomers may rise who will watch its revolutions among the associated suns of our stellar system. If their knowledge and intellect are equal to the science of our astronomers, they will foresee the ultimate coming together of all these suns into one common globe. And not this only, for they will predict the final coming together of all the stellar systems of the visible universe into one mass of matter.

When this mass is first collected, it will be intensely hot from the destruction of motion in the several suns and systems of suns as they come together. The heat will be radiated outward into the universe, and the one mass of matter will be gradually cooled. During the cooling there will be the same play and mutual interchange of heat, light, electricity, magnetism, and other imponderable forces that are now upon this earth. As the cooling proceeds, the action of these forces will diminish; when 977 degrees is reached, light will cease and darkness will fill the universe. As each vibration of heat leaves, the material mass, it will expand out at the rate of 192,000 miles per second in all directions, in the form of a swift-swelling hollow globe. When the temperature of absolute cold is reached (—492–2 degrees) the last vibration of heat will leave the mass of matter and will expand outward through all infinity of space and time.

Supposing, however, the ethereal fluid which fills the visible portion of the universe is limited in extent, so that the last vibration of heat will reach its boundaries and cease, what then becomes of the force of the universe and of the doctrine of the conversion of force?"

### The Hiscock Murder--Mrs. Cole.

The Albany correspondent of the New York Tribune says public opinion is generally severe upon Mrs. Cole, the guilty instigator of the Hiscock murder. She is a small, plain-featured woman, rather sickly in appearance. Her written "confession" to her husband, upon which he claims to be justified for the murder, fills a page of note paper, written in a clear, running hand, and womanlike, contains two postscripts, declaring and reiterating that Judge Hiscock, though often soliciting, had never succeeded in his desires. It is now believed that two motives conspired to the death of Judge Hiscock, viz: on the part of Mrs. Cole, jealousy, that another woman was about to realize a coveted love denied to herself; and on the part of Gen. Cole, malice, that Judge Hiscock, in his character of legal adviser, had so tied up his wife's fortune that he (Cole) could not get it. And yet, Gen. Cole has expected to come off triumphantly as a vindicator of "conjugal virtue," and he expressed great surprise and indignation that he has been fully committed for murder in the first degree. He furthermore cannot explain that the trial cannot be had earlier than November, a delay which certainly bodes him no good. It is not unlikely that long before November, evidence may be got in such legal shape as to require the indictment of Mrs. Cole also. Certainly this is not a Sickles-Key affair, but a foul assassination of an innocent man, in the belief that popular clamor will now, as heretofore, shield the assassin.

### I will Not.

"I will not," said a little boy stoutly as I passed along. The tone of his voice struck me.

"What won't you do?" I stopped and asked.

"That boy wants me to 'make believe' something to my mother, and I "won't,'" he answered in the same stout tone.

The little boy is on the right track. That is just one of the places to say "won't." I hope he will stick to it. He will, I feel sure.

AN EDITOR IN HEAVEN.— Under the above caption an exchange gives a long obituary notice of a deceased brother editor. The following is the closing paragraph:

"Should we not then rejoice that our late friend of the scissors and quill is in heaven? In that paradise the cry of 'more copy' will never again fall upon his distracted ears. There his enjoyments will no more be interrupted by the growls of the unreasonable subscriber, or the duns of the paper maker. There he will enjoy entire freedom from the detrations and misrepresentations of political opponents, and the caresses of ambitious political opponents. In that blest abode he is no more to be troubled with illegible manuscript or abominable poetry. No rival editors will there steal his thunder, or his items, and typographical errors shall know him no more for ever."

### REST.

"In bed we laugh, in bed we cry;
And born in bed, in bed we die:
The near approach, a bed may show,
Of human bliss to human woe!"

### Marriage of Romish Priests.

A large number of monks and priests in Italy have taken advantage of the privileges conferred on them by the new law for civil marriages, and have rushed into wedlock with unexpected alacrity. Even the nuns caught the infection, and the matrimonial mania threatens to complete the abolition of the convents begun by the civil law. Human nature appears to be stronger than the most rigid of monastic vows. If all this occurs almost under the shadow of St. Peter's may we not expect that the example will be followed by the priesthood in this country where there is not the slightest legal obstacles to marriage by the priesthood—or any other man? Besides divorces are easy and cheap here and Mormonism "still lives."

### A Railway Incident.

There was a noteworthy illustrative incident on a rail-car out of Springfield the other day. A big, black, but clean and well-dressed "colored brother," entered and sat down by one of the, at least formerly "ruling race." The white man looked venom at the black one, and hissing out do you suppose I am going to sit by——black negro like you—let me get out," squeezed by into the aisle, and took a vacant seat in front by the side of a small Yale student lad from Springfield. The latter looked at the new-comer, and saying, "Do you suppose I can sit by you, sir, let me pass out," got up, and went back to the just vacated seat by the black man. The party of the first part grew pale with added feeling, and said, "Do you prefer to sit by a nigger!" "I prefer to sit by a gentleman?" A gentleman never swears, or insults a man because of his color." "You shall be taken care of, you impudent stripling." When the black brother, stalwart and suggestive, spoke in, "I will take care of him sir," there ensued a splendid "passage of silence," and the car went on, and there was no assault and battery for the Worcester Police Court.—*Springfield Republican.*

### "Nae Strife up Here."

It is related that an old Scotch elder had once a serious dispute with his minister at an elders' meeting. He said some hard things, and almost broke the minister's heart. Afterward he went home, and the minister went home too. The next morning the elder came down, and his wife said to him:

"Ye look sad, Jan; what is the matter with ye?"

"Ah! he replied, "you would look sad too, if you had such a dream as I had. I dreamed I had been at the elders' meeting, and I had said some hard things, and grieved the minister; and then when he went home I thot' he died, and went to heaven; and thot' afterward I died too, and went to heaven; and when I got to the gates of heaven, out came the minister, and put out his hands to take me saying, 'Come along, Jan, there's nae strife up here—I'm happy to see ye.'"

The elder went to his minister directly to beg his pardon, and found he was dead.

The elder was so stricken with the blow that two weeks after he also departed: "And I should not wonder," said he who related the incident, "if he meet the minister at heaven's gate, and hear him say: "Come along, Jan, there's nae strife up here.'"—*Presbyterian.*

CRUELTY TO ANIMALS.—Whenever I see a boy cruelly beating a horse or donkey or throwing stones at a dog or cat, I say to myself, that boy is likely to grow up a bad man. When Nero, the wicked king, was a little boy, he was cruel to dogs, and pulled off the wings of flies, and tormented them in many sad ways. Did he grow to be a kind man? Sad to tell, he became a monster in cruelty, and murdered his mother! Boys and girls, let me warn you not to be cruel to animals.

UNCLE JOHN.

A patient once asked his physician which way a man might use tobacco to have any benefit by it: "By setting up a shop to sell it," said he, "for certainly there is no profit to be had from it any other way."

The editor of Woonsocket *Patriot* makes merry over the mistake of an old Shanghai hen of his that has been setting for five weeks upon two round stones and a piece of brick. "Her anxiety," he says, "is no greater than ours to know what she will hatch. If it proves a brickyard the hen is not for sale."

James Lane, of Hampton, N. H., and his family have been severely ill for several weeks of trichinæ, from eating pork of his own raising. A chemical examination showed 8,000 living creatures in every cubic inch of the flesh.

A man can not avoid his own company and he should therefore endeavor to make it as good as possible.

At a printer's festival, on Franklin's birthday, the following was the fifth regular toast: "The editor and the lawyer—the devil is satisfied with the copy of the former, but requires the original of the latter."

### Boys Out at Night.

The practice of allowing boys to spend their evenings in the streets is one of the most ruinous, dangerous and mischievous things possible. Nothing so speedily and surely marks the course downward. They acquire, under cover of night, an unhealthy state of mind; vulgar and profane language, obscene practices, criminal sentiments, and a lawless and riotous bearing. Indeed, it is in the streets after nightfall, that the boys generally acquire the education and capacity for becoming rowdy, dissolute criminal men. Parents, do you believe it? Will you keep your children home at night, and see that their homes are made pleasant and profitable?

Carpenter, the painter, tells the story that when consulting Secretary Chase about the emancipation picture, the present chief justice remarked, "If you want to paint a great historical picture, why don't you give old John Brown on his way to the gallows stooping to kiss a negro child?"

### Horrible Solution of a Mystery—A Child Eaten by Snakes.

From the Oswego Palladium.

In the early part of the month of August last, a girl named Eliza Drummond, about 11 years of age, whose parents live near the town of West Monroe, in this county, left her home one morning for the purpose of picking berries and never returned. The most diligent search was made for her by the parents and neighbors, but no traces could be found. She had not been drowned, for all places where there was water was carefully examined, even to wells and cisterns in the neighborhood. After weeks of fruitless search and inquiry, the afflicted parents gave up their child for lost. It was reported that a band of vagrants had been seen near the locality about the time of the disappearance, and the opinion prevailed that the child had been stolen by gipsies.

The event, which created a profound sensation at the time, had almost passed from the mind of all save the stricken parents, when it was painfully recalled by a recent occurrence. On Tuesday last five or six lads went out hunting in the vicinity, and during the day came upon a spot where a large number of black snakes were discovered and killed. The appearance of the reptiles in such numbers and at this season of the year, was considered remarkable, and it was suggested by one of the party that a breeding den must be somewhere near. A search was immediately commenced which resulted in a manner far different from their expectations.

In the side of a little hill near the edge of a swamp was found a sort of opening, which, in the summer, was concealed by tall grass and bushes. In this opening was found a human skeleton, from which every particle of flesh had been taken. The bones were as white as ivory, and all perfect. Near by was a tin pale, in a rusted condition and a tin cup. The boys were terribly frightened, and gave the alarm. The remains were taken from the mouth of the den, and an examination showed that the place had been, and probably now was, a breeding place for black snakes. The boldest hesitated to enter. The entrance, which was large enough for the admission of a man's body, grew smaller and tended downward. Lighted balls of hay, soaked in kerosene, were thrown into the cavity, and in less than fifteen minutes eighty-two snakes, ranging in length from one and a-half to four feet, were killed.

The pail and cup were recognized by Mr. and Mrs. Drummond as those taken by their child when she went away for the last time. The physicians pronounced the remains those of a female child, and there can be no doubt but that the poor little girl, while picking berries in the vicinity of the spot, become tired, seated herself in the shade of the opening of this horrid den, was attacked by the reptiles in numbers and killed.

### No Blessing for It.

A Methodist clergyman in the vicinity of Boston was invited to a public demonstration of some kind where an expensive supper was served, and on the table were bottles of intoxicating drinks. On being requested to ask the Divine blessing upon the repast, he arose and said: "I can cheerfully ask God to bless the food, but I dare not ask his blessing on a bottle of rum." The bottles were instantly removed, and the blessing was then invoked.—*Christian Secretary.*

We have often heard, and read, of inducements held out by editors and publishers to persons forwarding new subscribers; but the following is the latest, which we copy from an exchange:—"The editor of the Gardiner *Journal* is offering premiums for subscribers. This is one—For two new subscribers, furnished by any good-looking young lady, we will furnish a husband, or, if we fail in that, we will marry her ourselves as soon as the law will allow."

Gov. Geary, of Pennsylvania, has become a Good Templar.

Mr. Abraham Lincoln has left Springfield, Illinois, and now resides in Racine, Wisconsin.

The Ypsilanti Commercial
PUBLISHED WEEKLY, BY
C. R. PATTISON.

SATURDAY, JUNE 29, 1867.

OFFICIAL PAPER OF THE CITY.

### A SABBATH AT THE EPISCOPAL CHURCH.

Rev. John A. Wilson, pastor. Those familiar with the worship are aware that the congregation, or all disposed to do so, join in the worship, using the prayer book. This book is a complete repository of the entire form of worship—selections from scripture—prayers—hymns, doctrines. For want of space we only give the points wherein this body of Christians differ from other denominations. We learn the creed from the catechism. The catechism must be learned by every person before confirmation.

What is your name?
*N.* or *M.*
Who gave you this name?
My sponsors in Baptism; wherein I was made a member of Christ, the child of God, and an inheritor of the kingdom of heaven.
What did your Sponsors then for you?
They did promise and vow three things in my name. First, that I should renounce the devil and all his works, the pomps and vanity of this wicked world, and all the sinful lusts of the flesh. Secondly, that I should believe all the Articles of the Christian Faith. And Thirdly, that I should keep God's holy will and commandments, and walk in the same all the days of my life.
Dost thou not think that thou art bound to believe, and to do, as they have promised for thee?
Yes, verily; and by God's help so I will. And I heartily thank our heavenly Father, that he hath called me to this state of salvation, through Jesus Christ our Saviour. And I pray unto God to give me his grace, that I may continue in the same way unto my life's end.
You said that your Sponsors did promise for you, that you should keep God's Commandments. Tell me how many there are?
Ten.
How many Sacraments hath Christ ordained in his Church?
Two only, as generally necessary to salvation; that is to say, Baptism, and the Supper of the Lord.
What is the outward visible sign or form in Baptism?
Water; wherein the person is baptized, In the Name of the Father, and of the Son, and of the Holy Ghost.
What is required of persons to be baptized?
Repentance, whereby they forsake sin; and Faith, whereby they steadfastly believe the promises of God made to them in that Sacrament.
Why then are Infants baptized, when by reason of their tender age they cannot perform them?
Because they promise them both by their Sureties: which promise, when they come to age, themselves are bound to perform.

Believers in the doctrine of salvation by grace and faith. Election, perseverence of saints. Apostolic succession. One order of ministry, an unbroken line from the Apostles down. Lesson 23d day was read; also the litany. The 52d psalm was sung:

To bless thy chosen race,
In mercy, Lord, incline;
And cause the brightness of thy face
On all thy saints to shine:

Text: John 16: 13-14.

Howbeit when he, the Spirit of truth, is come, he will guide you into all truth; for he shall not speak of himself; but whatsoever he shall hear that shall he speak; and he will show you things to come.

He shall glorify me: for he shall receive of mine, and shall show it unto you.

Theme,—without the aid of the holy spirit—the bible useless and salvation unattainable. The bible might embrace good morals and good principles, but a grand failure unless it be practically applied to the salvation of men. The bible, the last thing to be given up, but of no substantial value if the Holy Spirit is wanting. To most of men the bible is a sealed book. Some kind of a veil thrown over the understanding. Why so? Illustrated in Romans. Many streams—variety of religious veiws flow from the bible, because untaught by the spirit. Too many are contented with the thoughts drawn from other minds. Erroneously suppose that they can learn the great science of salvation, be saved without supernatural aid. The gospel as preached is a failure. Very few converted. Difficulty not in revelation. The little child can comprehend it—understanding is given to the simple. Weak intellects grasp more of God's truth—attain to deeper conviction than minds of the finest culture. One succeeds and is saved—the other fails and is lost. Why? One depends upon the divine educator, God's spirit—the other scouts it. Thus the gospel rejected by the lofty mind is revealed to Christ's little ones. The amazing ignorance of those who have heard the gospel all their lifetime is unaccountable only upon this fact. The hearers rely alone upon the exposition of others, and depend for salvation upon the machinery of the church, loosing sight of the grand teacher, the holy spirit. The sensibilities have never been moved—heart untouched—no permanent convictions—no concern. The great mission of the preacher in the pulpit and out of it, is to awaken men to a sense of their lost state. Oh! that you who are not reconciled to God may be concerned and by the aid of the holy spirit, believe in Jesus, and be saved.

EVENING.

The service was read by Mr. J. K. Heartt. 118 Psalm sung:

God, my King, thy might confessing,
Ever will I bless thy Name;
Day by day thy throne addressing,
Still will I thy praise proclaim.

Text: Mark 6: 12:

And they went out, and preached that men should repent.

Persons mentioned are the Apostles—their first going out. All who heard the message and did not receive it the guiltiest persons in the world—may save our characters, and not our souls. Something more than hearing necessary — repentance. Hearing places a person in a grave position. No satisfaction drawn from the fact of living in a christian land. May endorse the bible—attend upon the sanctuary, but unless there is repentance and Christ received in the soul, all in vain. The impenitent of to-day are in a worse position than the inhabitants of Sodom and Gomorrah. A thousand sermons effect nothing unless they inspire the hearer to penitence. It is not an abstruse thing. It begins with the thinking faculty—men think differently and thus led to act differently. Men absorbed in gathering wealth are changed from gain to God—from making money as the only aim, to look upon the world as a grand mission field in which to do good. It is not a repentance of some particular act—all men not guilty of sensuality—overreaching, &c. Some men can lay claim to noble elements of character, veracity, generosity, honor, &c. But these men are not an exception to the requirement that *all* men should repent. There is a common ground—the comprehensive sin to which all flesh is heir—repenting of a particular sin don't cover this parent sin—men can practice reluctant virtues and really none the better before God. The cry of the Republican was be merciful to me a sinner—not for this or that sin as the Pharisee his virtues. The effects of sin remain with us until the last breath, but God lifts us out of this misfortune. John says—"They that are born of the spirit do not commit sin." An unrepentant soul cannot go to heaven—could not live there. Not to repent is a *crime*. Ruined and lost by sin, repent of it and hasten to Jesus, the great mediator and be saved by faith in him from its tremendous and unending consequences.

Sung 211 hymn:

Sinner, rouse thee from thy sleep,
Wake, and o'er thy folly weep;
Raise thy spirit dark and dead,
Jesus waits his light to shed.

The Sabbath School is at 9 A. M. Supposing it to be after morning service we did not have the privilege of attending. We learn however it is in a prosperous condition. There is an interesting infant class of 60 pupils. Mr. J. W. VanCleve and W. Watkins and the pastor superintend the School. Mr. E. Hewitt is leader of the choir.

For the Commercial,

### FOURTH OF JULY

Man requires amusement as much as food or health. Nothing can be made to contribute more to his intellectual and moral improvement, and especially to his social enjoyment than proper amusements. They can be made a powerful instrumentality for binding community inseparably in bonds of friendly affinity. Nothing will recruit the body and nerve the intellect for powerful exertion more effectually than the best forms of recreation. Nothing is more promotive of all the vital functions—Digestion, Circulation, Respiration, Perspiration, Muscular Action, &c. The hearty laugh rouses all the dormant energies of our being. I do not believe any medicines can be employed which will as soon or as effectually make the patient forget his pains or invigorate the system and expel maladies. Nothing is more injurious to health, talents, morals or long life, as long-faced stoicism or melancholy sobriety. Let us then have amusements. We hope our citizens will dispense with work and dull care and be animated by this day of our National Independence. Let us join hearts and hands and celebrate the day with spirit. The last five years has been the great grind-stone to sharpen and brighten our loyalty and patriotism and reverence for this day. Let us keep it green in our memory.

J. L. MAXWELL.

### CURRENT EVENTS.

Gen. Sheridan has written to Gen. Grant, severely criticising the President. Gen. Sickles also says ruin is sure to result from the President's interference. The Pacific Railroad has extended its range of business 90 miles further west. Our members of Congress will be in Washing on the 3d of July, except Gov. Blair, who is to deliver the address at the laying of the State Monument on the 4th. The Republicans of Ohio have nominated Gen. Hayes for Governor. The Surratt trial is progressing—the evidence of his guilt thickens. The promised session of Congress will probably be brief. The President is having a fine time in New England trip. Though among the chief radicals of the nation, and though personally detested, he is treated with proper respect. Surratt is identified. Gov. Chamberlain is re-nominated by the Republicans in Maine. Judge Witheral, an old citizen of Detroit, and well known in the State is dead. There is an immense assemblage of Catholic Priests at Rome. In Italy there is a very bitter anti-Catholic feeling.

CONSTITUTIONAL CONVENTION.

The Committee on Elections have reported the following as entitled to the ballot:

1 Every male citizen of the United States.

2. Every male inhabitant of this State, who shall have resided in the United States two years and six months, and declared his intention to become a citizen of the United States, pursuant to the laws thereof, six months preceding an election.

3. Every male inhabitant residing in this State on the 24th day of June, 1835.

4. All male Indians, natives of the United States.

Gold 138; 7-30's 105⅛ to 106¼.

READ THE ADVERTISEMENTS.—The man who does not read the advertisements in his paper can never be said to be well informed. The advertisements indicate not only the business enterprise, but the enterprise of the advertiser. When you see a man who advertises liberally, you may be certain of finding a good stock of goods in his store, that he keeps up with the market, and sells cheaper than those who do not advertise. If you want good bargans, always patronize those who avail themselves of the advantages afforded through the advertising colums of the paper.

### S. W. Pattison, M. D.---70th Birth-Day.

The children and grand-children were all invited at the Dr.'s. house. A nice dinner given—a cane presented by the children. The Dr. has never yet used a cane. He is very active for a man of his age. The most interesting part were the religious exercises. The 71st Psalm was read by the Dr.

"Cast me not off in old age.',
"Now when I am old and grey headed, O, God, forsake me not,"

After singing by the grand children, and some good advice, Jacob like, by the Dr., he commended all the family present and absent ones, to the care of the Heavenly Parent.

THE AMERICAN
COOKING STOVE!

After twenty years experience in the manufacture of stoves, we became convinced, some six years since, that a vast amount of money was being expended by the people of this country, in buying cheap and almost worthless stoves, a large portion of which was wasted; and that true economy consisted in buying the best stoves that could be made, notwithstanding the price was higher. With this view we proceeded to construct the American Cooking Stove, and spared no pains or expense to make it the best and most perfect stove that could be made. And we have experimented with it, and carefully watched its operation for the last six years, and when an improvement suggested itself, we have at once adopted it, and we have several of these improvements secured by letters patent. In this manner, we do not hesitate to say, we have brought it to a higher state of perfection than has heretofore been attained in cooking stoves. The recent improvements in this stove has added largely to its convenience and effectiveness In all the varieties of stoves we manufacture, we study usefulness, durability, convenience and economy in operation, rather than cheapness in price, and in so doing we are satisfied we study the interest of those purchasing our stoves.

H. WORMS.

YPSILANTI, May 31st, 1867. 170

THE UNION
PACIFIC RAIL ROAD COMPANY,

Are now constructing a Railroad from

OMAHA, NEBRASKA,

westward towards the Pacific Ocean, making with its connections an unbroken line

ACROSS THE CONTINENT,

The Company now offer a limited amount of their

FIRST MORTGAGE BONDS

having thirty years to run, and bearing annual interest, payable on the first day of January and July, in the City of New York, at the rate of

SIX PER CENT. IN GOLD,

AT

Ninety Cents on the Dollar,

This road was completed from Omaha 305 miles west on the 1st of January, 1867, and is fully equipped, and trains are regularly running over it. The Company has now on hand sufficient iron, ties, etc., to finish the remaining portion ta the eastern base of the Rocky Mountains, 212 miles, which is under contract to be done September 1st of this year, and it is expected that the entire road will be in running order from Omaha to its western connections with the Central Pacific, now being rapidly built eastward fram Sacramento, Cal., during 1870.

*Means of the Company.*

Estimating the distance to be built by the Union Pacific to be 1,565 miles, the United States Government issues its six per cent. Thirty year Bonds to the Company as the road is finished at the average rate of about $28,250 per mile, amounting to $44,208,000.

The Company is also permitted to issue its own First Mortgage Bonds to an equal amount, and at the same time, which by special Act of Congress are made a First Mortgage on the entire line, the bonds of the United States being subordinate to them,

The Government makes a donation of 12,800 acres of land to the mile, amounting to 20,032,000 acres, estimated to be worth $30,000,000, making the total resources, exclusive of the capital, $118,416,000; but the full value of the lands cannot now be realized.

The authorized capitel stock of the Company is one hundred million dollars, of which five millions have already been paid in, and of which it is not supposed that more than twenty-five millions at most will be required.

The cost of the road is estimated by competent engineers to be about one hundred million dollars, exclusive of equipment,

*Prospects for Business.*

The railroad connection between Omaha and the East is now complete, and the earnings of the Union Pacific on the sections already finished for the first two weeks in May were $113,000. These sectional earnings as the road progresses will much more than pay the interest on the Company's bonds, and the through business over the only line of railroad between the Atlantic and Pacific must be immense.

*Value and Security of the Bonds.*

The Company respectfully submit, that the above statement of facts fully demonstrates the security of their Bonds, and as additional proof they would suggest that the Bonds now offered are less than ten million dollars on 517 miles of road, on which over twenty million dollars have already been expended;—on 330 miles of this road the cars are now running, and the remaining 167 miles are nearly completed.

At the present rate of premium on gold these bonds pay an annual interest on the present cost of

*NINE PER CENT.*,

and it is believed that on the comple onof the road, like the Government Bonds they will go above par. The Company intend to sell but a limited amount at the present low rate, and retain the right to advance the price at their option.

Subscriptions will be received in New York by the

Continental National Bank, No. 7 Nassau St, Clark, Dodge & Co., Bankers, 52 Wall St, John J. Cisco & Son, Bankers, No. 33 Wall St.,

And by Banks and Bankers generally throughout the United States, of whom maps and descriptive pamphlets may be obtained. They will also be sent by mail from the Company's Office, No. 20 Nassau Street New York, on application. Subscribers will select their own Agents in whom they have confidence, who alone will be responsible to them for the safe delivery of the bonds.

JOHN J. CISCO,
Treasurer,
172-3m New York.

## NEW HAY SCALE.

THE Ypsilanti Woolen Manufacturing Co., have put up at their Office, near the Follett House, a new pair of

(Communicated)

**Normal School Lyceum.**

The second literay exercises of the present term of the M. S. Normal Lyceum took place in Normal Chapel, on Friday evening, June 21st.

Exercises opened by prayer by Rev. Mr. Hewitt, and an anthem by choir, "O how Beautiful."

"Somehow," Geo. H. Hopkins, White Lake. Every body must think and act "somehow," but some people have a queer way of doing things. The speaker went from Horace Greeley going bail for Jeff. Davis to "women's rights," (his favorite theme), and closed up with a lecture on temperance. There were many good ideas out of a miscellaneous heap. He would have our legislators fine the liquor dealers $500 for the first offense, and give them the penetentiary for the second. If we had heavy fines, and the right kind of officers whose *business* it was to execute the law intemperance would soon be suppressed. "Discontent an Element of Success," Miss Belle Widner, Wyandotte. Discontent commenced with Adam and Eve partaking of the forbidden fruit, and ever since it has been an element of human nature. She considered discontent essential to all human progress. It was what actuated Columbus in the discovery of the New World—what has brought out a knowledge of the physical condition of the earth, and its formation from nebulous matter, and dispelled the superstitious idea of its resting on the back of an elephant. The essay was excellent, read well, and indicated an independent womanhood, full of energy and perseverance.

"Leave the Beaten Path," L. E. Hall, Lamont. Commenced by relating the story of "the youth and the donkey." The youth, following the example of his father, put the grist in one end of the bag, and a "stun" in the other to balance it across the donkey. We all do many things because our fathers have done them or others do them. Referred to voting as other men vote and being led by designing politicians. The following of fashion consisted in doing things because others do them. Gave the followers of fashion a scathing rebuke. Made them out the little end of all creation in thought, word and deed. His thoughts were all pointed and clear, and presented in a forcible, impressive manner. Decidedly, (according to our opinion, and as the sensation of the house indicated), the best speech of the evening.

Music—Quartette, "Our Father's Hearth,' sung by Miss Mina Rorison, Miss Elorence Brinkerhoff, Mr. W. H. Russell and Mr. J. S. Maltman.

"A Leaf from Nature," Miss Julia Hammond, Ypsilanti. The book of nature is a universal book. She showed how many sublime and useful thoughts could be read from this book. Also innocent childhood was an interesting book. Her essay was full of sublime and lofty thoughts. We should say she presented beautiful pictures rather than books, that charmed the imagination; such thoughts could only have sprung from a noble, generous soul. Read excellently.

"National Pride," Orlando Pierce, Bedford. Commended the national pride of the French, and the Mexicans in vanquishing Maximilian. We as a nation lack national pride. We love our country too much through policy, not enough from principle. The Pacific Railroad would be a source of wealth and strength. National pride should stand above all party faction. We should not love the North, South, East or West, but the whole country. Noble sentiments, and well delivered.

"Saws," by Miss S. Eliza Phillips, Ypsilanti. People were represented as saws, some of whom were in good working order, but others, fault-finders, were creaking, dull saws. The tongue is a circular saw. Ordinary production. Read very well.

Music—Quartette, "Stars of the Summer Night," by Miss —— Rice, Miss Florence Brinkerhoff, Mr. E. K. Hill, and Mr. F. H. Pease who conducted the music for the occassion. As far as we could judge, performed well, as was nearly all the pieces.

"Battles, Seen and Unseen," W. Henry Russell, Adrian. Passion and love of power the usual cause of war. We are not much different from those of olden time in making heroes of such as show brute valor and wrecklessness in war. Nobler battles—battles with difficulties, with evil and superstition. Stern experiences make strong men. He who would be a man, must free himself of prejudice, selfishness, &c. It takes true bravery to do this. He is a hero who stands up for truth, and will surely conquer The speaker had lofty ideas, bespeaking an earnest, ambitious, yet generous nature. He will succeed, if success is possible.

"Influence," Miss Mina Wadsworth, Petersburg. Her subject treated of the influence of great warriors and statesmen, as Napoleon, geniuses, as Milton and a host of others, influence of childhood, &c. Read rather too low, but a neat composition.

"The Thirty-Fourth Congress," W. Carey Hill, Ypsilanti. A very well got up poem; gave a high eulogy to Sumner, as a leader of the Thirty-Fourth Congress. And lauded those who had stood up for freedom and right, and radical principles, such as Lovejoy, Burlingame, &c., while Southerners were plotting treason. He could not have had a better subject for a speech than the 34th Congress, but we should think he could have treated the subject better in prose, and left poetry for the ladies, or a "softer" subject.

Quartette—"Let your Summer Friends go By," music by Pease, sung by Miss —— Rice, Miss —— Pope, Charlie Baker and E. K. Hill.

"Poems Unwritten," Miss Frances E. Bacon, Ypsilanti. Defined who were real poets, and what was poetry. Unwritten poems—nature, man — from manhood to childhood. She showed that she was master of the subject, and an old hand with the quill. Well read.

"Moral Courage," J. S. Maltman, Ypsilanti. Some of our political leaders are dead to moral courage, but alive to policy. Policy with the nation is dead and buried. Eulogy to John Knox, and the Nightengales of England and Ameriea. Moral courage a foretaste of heaven. As representatives of moral courage in this country was Washington, Abraham Lincoln and Wm. Lloyd Garrison, and there is room enough in the American heart for a thousand more. Instead of coming out boldly, he had sligh, cowardly flings at individuals and party principles.

The exercises closed by Chorus and Quartette—"Nights Shade no Longer," by the choir. Altogether the exercises were of a superior character.

**Celebration.**

In Augusta, the Good Templars Lodges will be in attendance. Hon. J. W. Childs will preside. Capt. E. P. Allen will deliver the address.

**Ladies M. E. Church at Follett House.**

It was a splendid affair. The tables fairly groaned with good things, and was decorated with all the flowers of the season. Ice-cream and strawberries and lemonade in abundance. The receipts must have been generous.

**The Fourth.**

The Horse Fair will attract a crowd. The diving of Mr. Harrington, at 10 A. M., will be an attraction. The Catholic Festival will also draw. The Luthern celebration a'so. Vail & Maxwell have the sole right to supply refreshments in the fair grounds. They will be served up in style. Soda will be the strongest drink allowable.

**Fire.**

Mr. McCard's little son and daughter, children like, thought, Tuesday morning, it would be a nice thing to build a fire in grandmother's stove inside the barn, back of River street; so taking matches they filled it with straw and set it on fire. Instantly, the barn was in a blaze. It is almost miraculous how the little ones escaped, the door being shut. John Lake's barn, a valuable one, was also burned up. The valuables were removed in season. There was an insurance of $200 on the latter.

**Our County Schools.**

We have a communication from the County Superintendent, John D. Pierce We give the gist. His duties began the 1st of May. A herculian task is imposed in such a thickly populated county as Washtenaw. 200 schools to be visited — condition of school-buildings—libraries to be noted—lectures to be given, and institutes to be organized. The Superintendent is determined to discharge to the letter his duties. 50 schools have been visited. And with only four exceptions the schools are in better condition than he anticipated. There is an evil in the multiplication of classes. In one instance, 13 in arithmetic, one in each. This evil arises from the diversity of books. We hope the Superintendent will succeed in correcting this evil. Our children have not finished a class book, much less familiar with it, before a new book appears on the stage, and the parent is commanded to buy it. We believe teachers are renumerated for every change. If not, they are oftentimes sadly cheated. It is an outrage. Teachers and parents the victims of publishers and booksellers. He proposes to visit the schools in the Eastern part of the county during the summer term, and during the year to hold in different parts of the county three Teachers' Institutes.

**Soda Fountain.**

These hot days, a visit to Frost & Whedon's fountain is refreshing.

AGUE, CHILLS, OR INTERMITTENT FEVER cured, or the money refunded. *Dr. Witt's* Ague Pills are entirely a new medicine, and having been tried in over 1200 of the very worst and obstinate cases of Chills and Fever, not failed even in one case to effect a speedy cure, the proprietor guarantees them to cure every case, even after all other medicines fail. Those suffering should immediately give them trial. They are warranted to cure. For sale by Druggists, or sent by mail on receipt of the price, $1. Address Dr. Witt. *Box* 611, Cincinnati, Ohio.
167-1y

THE CABINET ORGANS.—The most valuable and distinctive characteristic of the Mason & Hamlin instruments are undoubtedly their quality of the tone. There is a liquid smoothness and purity, a freedom from harshness and hardness of character, which is very notable and praiseworthy. Their instruments have a near approach to that sonority which is sought for in the diapasons of a ripe organ. The rapidity of their action, the quickness with which the tone repounds when a key is touched, is also a notable excellence. Their perfection in this respect extends their capacity to light, rapid music, as well as those more slow and sombre strains which have been classed as organ music.—*N. Y. World.*

"Songs of Malta." Let it be so recorded —J. W. Poland's Humor Doctor is the best preparation for the cure of Scrofula and all Diseases of the Blood. Put up in large bottles, and for sale by all Druggists at $1.

A Mechanical Wonder!—The Scientific American, in speaking of the Wilcox and Gibbs Sewing Machine, says: "One cannot but admire the beauty and accuracy of its movements, and the entire absence of all noise; even when running at the rate of 2,000 stitches and upwards per minute; this alone must prove a great recommendation to it. Another merit is the good workmanship. The parts are made interchangeable, so that in the event of accident to the machine, any part can be replaced at a trifling cost. It is, indeed, a Mechanical wonder—a household necessity.

Gift Concert Swindles are bad enough but even they are not so reprehensible as the wicked attempts to palm off worthless medicines upon the sick. Dr. J. W. Poland's White Pine Compound is one of the very few genuine preparations in the market. Sold by all druggists.

Read the advertisment.

*How* often do we hear men and women complaing "*I* cannot get anything to stay on my stomach; I am compelled to eat Graham bread and the plainest food, and then must suffer from it." Reader, this is Dyspepsia—we bid you eat as heartily as you plaese, and anything that you choose, even the richest food, and if you will follow it with a single spoonful of Coe's Dyspepsia Cure, you need not fear any distressing effects from it. It is the greatest remedy in the world for dyspepsia, indigestion and all disease proceeding from the stomach or bowels.

COMMERCIAL

**JOB DEPARTMENT.**

Having removed our office to the commodious room, corner of Congress and Huron Streets, and restocked the JOB DEPARTMENT with the latest styles of type, cuts, borders, &c., we are now prepared to do all kinds of Book and Job Printing, such as Posters, Programmes, Cards, Bill and Letter Heads, Pamphlets, Blanks, &c., in plain and colored inks, and on first class paper. Having an experienced and tasteful set of hands, our patrons may feel assured of getting their work *well done* and at reasonable rates.

**Probate Notices.**

Our friends having business at the Probate Office should remember that it is their right to direct in which paper the advertising shall be done. Be careful to leave special directions that t be sentto the COMMERCIAL.

It is acknowledged by Physicians, Druggists, and everybody else who ever used it, that Dr. Strickland's Cough Balsam will cure coughs, colds asthma, and all diseases of the throat and lungs, quicker and better than any other remedy known. We would recommend our readers to try this great remedy, knowing it to be a No. 1.

A NEW "HEALTH REFORMER'S COOK BOOK."

Under the above title, F. Wilson Hurd & Co., of "Our Home," Dansville, N. Y. have just published a work of 70 pages, which contains a large amount of valuable matter. It has been prepared by Mrs. Lucretia E, Jackson, who for nearly twenty years has been associated with her husband, Dr. James C. Jackson in a management of one of the largest and most successful Hygienic Institutions in the country. Mrs. Jackson has made the preparation of food in the most wholesome simple and palatable ways a matter of study and thorough experiment, and the result is before us in the Health Reformer,s Cook Book. Every family, whoes object is to eat to live rather than to live to eat, should possess this book; and indeed no housekeeper, whatever may be her method of cookery, could fail to derive useful information from it. Price by mail 30 cents. 165—4w

FISK & HATCH,

Bankers, and Dealers in Government and Other Desirable Securities,

*NO. 5 NASSAU STREET, N. Y.*

recommend to investors the

First Mortgage Bonds,

OF THE

CENTRAL

PACIFIC R. R. COMP'NY.

This Company is constructing under the patronage of the United States Government, the Western end of the Great National Railway across the Continent.

Their line will extend from Sacramento, California, across the Sierra Nevadas to the California State line, traversing the richest and most populous section of California, and thence through the great mining regions of the Territories, to the vicinity of Salt Lake City.

It forms the sole Western link of the only route to the Pacific which is adopted by Congress, and aided by the issue of United States Bond.

Their road is already completed, equipped and running for 94 miles from Sacramento to within 12 miles of the summit of the Sierras, and a large amount of the work of Grading, Tunnelling, &c., beyond that point has been accomplished.

The First Mortgage Bonds of this Company afford unusual inducements of Safety and Profit to Investors, for the following among other reasons, viz.:

First, The rate of interest is Six per in Gold, payable Semi-annually, in the City of New York.

Second, The principal is payable in Gold at maturity.

Third, The cost of the Bonds, 95 per cent. and accrued interest, is 10 per cent. less than that of the cheapest 6 per cent. Gold bearing bonds of the Government.

Fourth, The United States Government provides nearly half the amount necessary to build the entire road, and looks mainly to a small percentage on the future traffic for re-payment.

Fifth, Owing to this liberal provision, accompanied with Extensive Grants of Public Lands, by which the Government fosters this great national enterprise, its success is rendered certain, and its financial stability altogether independent of the contingencies which attend ordinary Railroad enterprises.

Sixth, The security of its First Mortgage Bonds is therefore ample, and their character for safety and reliability is equalled only by that of the obligations of the Government itself.

Seventh, The net earnings of the completed portion are already largely in excess of the interest obligations which the Company will incur on twice the distance, and are steadily increasing, rendering the uninterrupted payment of the interest absolutely certain

Eighth, At the present rate of gold they pay nearly 8½ per cent per annum, on the amount invested.

The Bonds are issued in denominations of $1,000 with semi-annual gold coupons attached, payable in New York and are offered for the present at 95 per cent and accrued interest (in currency) from January 1st.

Orders may be forwarded to us direct, or through the principal Banks and Bankers in all parts of the country.

Remittances may be made in drafts on New York, or in Legal Tender Notes, National Bank Notes, or other funds current in this city, and the Bonds will be forwarded to any address by Express, free of charge. Inquiries for further particulars by mail or otherwise, will receive punctual attention.

FISK & HATCH,

Bankers, and Dealers in Government Securities,

No. 5 NASSAU ST., NEW YORK.

N. B.—All kinds of Government Securities received at the fall market price in exchange for the above Bonds. Also.

☞ All descriptions of Government securities kept constantly on hand, and bought sold, or exchanged.

☞ Gold Coin and U. S. Coupons bought sold, and collected.

☞ Deposits received on liberal terms, subject to check at sight.

Collections made throughout the country. Miscellaneous stocks and bonds bought and sold at the Stock Exchange on commission for Cash.

☞ Special attention given to the exchange of Seven-Thirty Notes of all the series for the New Five-Twenty Bonds of 1865 on the most favorable terms. 165 2-m

MEDICAL, &c.

AN INVALUABLE MEDICINE
FOR THE PURIFYING OF THE BLOOD,

DR. J. W. POLAND'S

HUMOR DOCTOR.

A Positive Remedy for all kinds of Humors,

PARTICULARLY

**Erysipelas, Nettle-Rash, Salt Rheum, Scrofula, Carbuncles, Boils, and Piles.**

It is very easy to say of this, or of any other medicine, "It is the very best remedy known." It is not always so easy to prove it. It is, however, exceedingly gratifying to the Proprietor of this medicine, that, while he delares to the public that this is a most wonderful and effective specific for Humors, as stated above, he has abundant proof at hand to sustain his statement.

For sixteen years the HUMOR DOCTOR has been manufactured and sold, and every year has increased the value of its reputation, and the amount of its sales. In New Hampshire, where it originated, no remedy for Humors is so highly prized. An eminent physician (now an army surgeon) when practising in New Hampshire, purchased between fifty and sixty gallons of it, during some seven or eight years, and used it in his practice. He has since then ordered it for the hospital where he was stationed. Other physicians have purchased it, and have used it in practice with great success. When the Proprietor lived in New Hampshire, at Goffstown Centre, for the space of thirty or forty miles around, and in Manchester particularly, the HUMOR DOCTOR was well known and highly valued for the numerous and wonderful cures which it effected. Though manufactured in large quantities the supply was frequently exhausted, and purchasers had to wait for more to be made. In that region some very severe cases of Erysipelas were treated with it—and they were cured! Erysipelas sores, or carbuncles, those ugly, painful ulcers, were entirely removed wherever this medicine was faithfully used. So it was with Scrofula and Salt Rheum. The HUMOR DOCTOR cured them.

For the sake of showing what is thought of it, a few testimonials are here inserted:

**Milton Gale, Esq., Boston.**

*I hereby certify that I was sorely afflicted with Boils for two years, developing themselves upon my limbs and other parts of my body. The sufferings which I endured from them are indescribable. Suffice it to say that I faithfully tried several of the most popular humor remedies, but without removing the affliction. At length, by the earnest request of an intimate friend, I was induced to try Dr. J. W. Poland's Humor Doctor, and am very happy to attest that all my Boils were removed, and my health was restored by using Dr. Poland's aforesaid medicine.*

*BOSTON, Jan. 14, 1856. MILTON GALE.*

**Mrs. Wheeler, Stoneham, Mass.**

*I very confidently and earnestly recommend Dr. J. W. Poland's Humor Doctor as an excellent remedy for Humors, having been wonderfully benefited by it myself. My own case was a very severe and obstinate one. For more than two years the skin upon the inside of both my hands, and even down on the wrist, was constantly cracked and broken up, so that I was unable to use my hands in any kind of wet work, and was obliged to wear gloves in sewing to avoid getting blood upon my work. The humor which so afflicted me was probably a combination of Erysipelas and Salt Rheum. My general health was quite poor. Soon after I began to use the Humor Doctor I could perceive signs of healing. I continued to take the medicine till I was finally cured. My hands are now perfectly free from humors, and to all appearances my whole system is clear of it, and has been for several months. I used eight bottles before I felt safe to give it up entirely, but they cured me.*

*HARRIET WHEELER.*

*STONEHAM, Mass., July 5, 1856.*

**Mrs. Porter, Dover, N. H.**

*DOVER, N. H., July 22, 1855.*

*DR. POLAND: I received your letter inquiring as to the effects of your medicine on sea-sickness. I am happy to say that I think it is "the medicine" for that dreadful sickness. I tried various prescriptions, but found none that settled the stomach and cleared the head like the Humor Doctor. I felt as though I could hardly wait to get ashore, to entreat you to introduce it into ship chandlery stores, that it may find its way to those who suffer upon the mighty deep from sea-sickness. If captains who take their families with them, or carry passengers, should try it for once, they would never be willing to voyage without it.*

*Yours, HARRIET M. PORTER.*

*Much more might be stated in relation to this medicine, as contained in testimonials, but it is needless. Ask Manchester druggists about it, especially E. W. Blake, at Barr's. Inquire of Mr. Henry Plumer, of Bedford, whose wife was cured by it of Salt Rheum. Ask almost any person in Goffstown, and they will declare its value as a remedy, as used in their own cases or by their friends.*

E. D. LAY & CO.,
Huron Street, Ypsilanti, Mich.

DR. SCHENCK'S

PULMONIC SYRUP.

This great medicine cured Dr. J. H. SCHENCK, the Proprietor, of Pulmonary Consumption, which had assumed its most formidable aspect, and which speedy death appeared to be inevitable. His physicians pronounced his case incurable when he commenced the use of this simple but powerful remedy. His health was restored in a very short time, and no return of the disease has been apprehended, for all the symptoms quickly disappeared, and his present weight is more than two hundred pound.

Since his recovery, he has devoted his attention exclusively to the cure of Consumption and the diseases which are usually complicated with it, and the cures effected by his medicines have been very numerous and truly wonderful. Dr. SCHENCK makes professional visits to several of the larger cities weekly, where he has a large concourse of patients, and it is truly astonishing to see poor consumptives that have to be lifted out of their carriages, and in a few months healthy, robust persons. Dr. SCHENCK'S PULMONIC SYRUP, SEAWEED TONIC, and MANDRAKE PILLS are generally all required in curing Consumption. Full directions accompany each, so that any one can take them without seeing Dr. SCHENCK, but when it is convenient it is best to see him. He gives advice free, but for a thorough examination with his Respirometer his fee is three dollars.

Please observe, when purchasing, that the two likenesses of the Doctor—one when in the last stage of Consumption, and the other as he now is, in perfect health—are on the Government stamp.

Sold by all Druggists and Dealers. Price $1.50 per bottle, or $7.50 the half dozen. Letters for advice should always be directed to Dr. Schenck's Principal Office, 15 North 6th St. Philadelphia, Pa.

General Wholesale Agents: Demas Barnes & Co., N. Y., S. S. Hance, Baltimore, Md.; John D. Park, Cincinnati, Ohio; Walker & Taylor, Chicago, Ill.; Collins Bros., St. Louis, Mo. [3d w. ea. mo. 1 yr.

TO CONSUMPTIVES.

The advertiser, having been restored to health in a few weeks by a very simple remedy, after having suffered for several years with a severe lung affection, and that dread disease Consumption—is anxious to make known to his fellow-sufferers the means of cure.

To all who desire it, he will send a copy of the prescription used (free of charge), with the directions for preparing and using the same, which they will find a sure cure for consumption, asthma, bronchitis, coughs, colds, and all throat and lung affections. The only object of the advertiser in sending the prescription is to benefit the afflicted, and spread information which he considers to be invaluable, and he hopes every sufferer will try his remedy, as it will cost them nothing, and may prove a blessing. Parties wishing the prescription, free, by return mail, will please address Rev. Edward A. Wilson, Williamsburg, Kings Co., New York. 168-1y

TO CARPENTERS.

Sealed proposals will be received by the Township Board of Augusta, at the office of the undersigned, until the first day of July next, at 4 o'clock p. m., for furnishing materials and building a Township house in said Town, 42 by 32 ft, 15 ft high, with one door, 10 12-lighted windows 9 by 14, a desk 12 feet long, at one end inclosed, a permanent seat against the wall around the room. To be ceiled up on the outside, and up to the inside. The remainder to be lathed and plastered; to be done and finished up in a plain and substantial manner. The foundation to be laid for the Contractor. More particular specifications may be seen at the office of the undersigned.

T. DEUEL.
Augusta, June 10, 1867. Town clerk.

Hembold's Fluid Extract Buchu

HALL'S

Vegetable Sicilian Hair Renewer

***Has stood the test of seven years trial by the public; and no preparation for the hair yet discovered will produce the same beneficial results. It is a new scientific discovery, combining the most powerful and restorative agents in the VEGETABLE KINGDOM. It restores GRAY HAIR TO ITS ORIGINAL YOUTHFUL COLOR. It makes the scalp white and clean; cures dandruff and humors, and falling out of the hair; and will make it grow upon bald heads, except in very aged persons, as it furnishes the nutritive principle by which the hair is nourished and supported. It makes the hair moist, soft, and glossy, and is unsurpassed as a HAIR DRESSING. It is the cheapest preparation ever offered to the public, as one bottle will accomplish more and last longer than three bottles of any other preparation.***

***It is recommended and used by the First Medical Authority.***

***The wonderful results produced by our Sicilian Hair Renewer have induced many to manufacture preparations for the Hair, under various names; and in order to induce the trade and the public to purchase their compounds, they have resorted to falsehoods, by claiming they were former partners, or had some connection with our Mr. Hall, and their preparation was similar to ours. Do not be deceived by them! Purchase the original: it has never been equalled. Our Treatise on the Hair, with certificates, sent free by mail. See that each bottle has our private Revenue Stamp over the top of the bottle. All others are imitations.***

**DR. RANSOM'S HIVE SYRUP AND TULU.**

No Cough Remedy has ever arisen so rapidly into public favor as the above medicine, and it well merits this popular appreciation. It is an excellent medicine, neatly put up, cheap, and just the thing for the Million. No family will be without it when once acquainted with its virtues. Each bottle contains four ounces, by weight.

THROAT AND LUNGS.

At this season of the year, when Coughs and Colds are troublsome, every family should have a safe and certain remedy at hand. DR. RANSOM'S HIVE SYRUP AND TULU is the very thing. It is not only pleasant for children to take, but is a certain cure for CROUP, WHOOPING COUGH, BRONCHITIS, ASTHMA, COUGHS, and all affections of the THROAT AND LUNGS.

**Sold by all Druggists. Price 35 cents per Bottle.**

D. RANSOM & Co., Proprietors,
121 Main St., Buffalo, N. Y.

Take no more unpleasant and unsafe remedies for unpleasant and dangerous diseases. Use Helmbold's Extract Buchu and Improved rose wash.

## SPECIAL NOTICES.

**A SURE CURE WARRANTED**

**A WORD TO THE PUBLIC.**

As the forms of disease which have their origin in the impurity of the blood, let the sufferers remember that no merely outward application will afford him permanent relief, because it cannot reach the seat of the disease. The Compound going into the blood UPON THE CITADEL OF THE DISEASE, drives it from its stronghold, and the victim is relieved.

This should never be forgotten.

**USE GARDINER'S**

CHICAGO, Nov. 15, 1866.

Mr. H. R. GARDINER, Proprietor Gardiner's Rheumatic and Neuralgic Compound:

SIR:—Having been afflicted with the Neuralgia in my face for six months, a friend induced me to try your Compound, and I can cheerfully say I found it the only relief. I recommend it to all who are troubled with this neuralgia.

Yours respectfully,
A. BOOTH,
Oyster Dealer, cor. Madison and Dearborn Sts.

CHICAGO, Aug. 28, 1866.

DR. GARDINER, Proprietor Gardiner's Rheumatic and Neuralgic Compound:

*Dear Sir*:—It is with great pleasure that I testify to the merits of your invaluable medicine. Having been afflicted with Neuralgia for more than a year, causing me great annoyance as well as suffering, and after trying almost every remedy the country could obtain, a friend induced me to try your Compound, and I am happy to say that one bottle entirely cured me, and I cheerfully endorse all that has been said in its favor, and earnestly recommend a trial by every one suffering from Neuralgia or Rheumatism.

Firm of Merrill & Hopkins, 29 Lake St.
WM. S. HOSKINS

**RHEUMATIC AND NEURALGIC COMPOUND.**

This wonderful Medicine—entirely vegetable in its character—has never failed in effecting a permanent cure in a single instance. Wherever it has been introduced it has met with the most marked success. It has probably relieved more human suffering than any other one, or twenty medicines, and is destined ere long to become the only recognized Rheumatic and Neuralgic specific on the Globe.

THE PRICE IS LOW, AND THE BOTTLES ARE LARGE.

Messrs. BURNHAMS & VAN SCHAACK, WHOLESALE DRUGGISTS, Chicago, General Agents for the Northwest.

DR. CHAUSSIER'S EMPRESS.

Composition Imperatrice, pour les Ceeveux

It is warranted to restore GRAY or Faded Hair to its original color. For an Elegant Dressing, richly perfumed, it is unsurpassed It relieves the scalp of dandruff and all irritation, and stops the hair falling off. It does not gum the hair, stain the skin, nor soil the finest fabric, and is free from the disagreeable odor of sulphur.

See what the Great Tragedienne says:

"Messieurs:—In Dr. Chaussier's Empress I recognize an old friend, having used it as a cosmetique and toilet article for several years. The bottle is not the same style we have in Paris, but upon the use of the preparation I find it to be the same as that put up in France. It is the BEST ARTICLE FOR THE HAIR I have ever found, and I am glad to know it is becoming so popular in America.

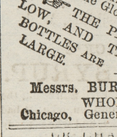
ADELAIDE RISTORI."

SOLD BY ALL DRUGGISTS.

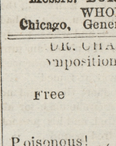
**RING'S**

**Vegetable Ambrosia, FOR GRAY HAIR.**

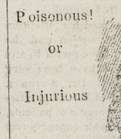
This is the AMBROSIA that Ring made.



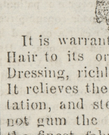
This is the Cure that lay
In the AMBROSIA that Ring made.



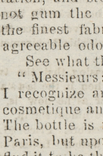
This is the Man who was bald and gray,
Who now has raven locks, they say.
He used the Cure that lay
In the AMBROSIA that Ring made.



This is the Maiden, handsome and gay,
Who married the man once bald and gray,
Who now has raven locks, they say.
He used the AMBROSIA that Ring made.



This is the Parson, who, by the way,
Married the maiden, handsome and gay,
To the man once bald and gray,
But who now has raven locks, they say,
Because he used the Cure that lay
In the AMBROSIA that Ring made.



This is the Bell that rings away
To arouse the people sad and gay
Unto this fact, which here does lay—
*If you would not be bald or gray,*
*Use the AMBROSIA that Ring made.*

Sold by all wholesale and retail Druggists
Smith, Bro., Agents, Ypsilanti.

## AGRICULTURAL.

**The Parson and His Turnip-Patch.**

We do not believe in the oft-expressed opinion that "ministers preach because they cannot do anything else;" but we think that a good minister is equal to any emergency, and can succeed in almost anything he turns his hand and heart to.

A statement has lately been published in regard to a good yield of roots, the result of an experiment made by the pastor of a country Baptist church, who united the duties of his profession with the expenditure of a little time in the caring for a few fine-wool sheep, and in tilling a little of mother earth. We give his experience as he narrates it:

"Having a piece of land, a fraction less than one-third of an acre (soil light, sandy loam), I applied thirty-one one horse loads of stable-manure early in the spring, plowed it in deep, and harrowed it thoroughly; laid it out in ridges, three feet apart, raked down the tops of the ridges, and sewed in drills Silesian beet-seed. After the plants were well up, I cultivated thoroughly, and drilled between the rows Skirving & Laing's purple-top rutabagas. Hoed well, and kept the land free from weeds.

"I commenced to feed off the tops late in August. In September fed off the tops, and gathered out such beets and small bagas as were opened on the tops, and fed to sheep. The crop, as harvested and put into the cellar the last of October or first of November was measured in baskets, and amounted to 570 bushels.

A yield equivalent to a rate 1,710 bushels per acre. The parsonage lot includes about 14 acres of land, the most of it arable; but he says he got "more profit from the piece of roots than from all the rest."

We say, Well done, good and faithful servant; and to our reader, Go thou and do likewise.

We doubt not that among the thousands of ministers throughout the country there are many whose agricultural or gardening experience might be pleasantly and profitably told.

**Storm Signals During Harvest.**

A correspondent of the Washington Intelligencer calls attention to the serious injury done to the crops by storms which sweep over a wide surface, and makes the following suggestions: "When a storm commences in any part of the country, and is traveling in a certain direction, or spreading in many directions, the first telegraph station over which it passes should send the news instantly to all the telegraph stations at county seats, hundreds of miles in advance in the direction that the storm is traveling. At each of these county seats a cannon might be kept ready, and as soon as the news is received of an approaching storm, it is to be fired three times, at intervals of two minutes if the storm is traveling rapidly, and at intervals of ten minutes if traveling slowly. As a cannon can be heard distinctly from fifteen to twenty miles in all directions, by firing one at each county seat the farmers, for hundreds of miles over the whole country, would be warned in time to get their grain or hay under cover, or in a situation to shut out the rain. And this warning would be useful not only in harvest, but also in seeding time, and, in many other situations too numerous to mention, not only to farmers but to the public generally. If this plan should meet with general approval, it may be set into operation immediately. Arrangements may be made between the county officials in all the States. If the newspapers would then publish the storm signals, which should be posted in every house over the whole country, the plan would be complete, and in a couple of months the "storm-guns" would commence to roar, giving warning of approaching storms and hurricanes, over vast extents of country, hundreds, and even thousands of miles in advance of the actual thunder of the storm.

A CLEVER DEFENCE.—"Why is it," said T., a distinguished lawyer of a city of New England, to his friend, Mr. H., a clergyman of high reputation in the same place, "why is it that your ministers, who are professedly the light of the world are always quarreling with each other, while we lawyers, wicked as we are represented to be, are remarkable for our courtesy, and seldom disagree among ourselves? It is impossible that so fine and classical a scholar as yourself, Mr. T., should be under the necessity of asking that question? Hear what answer Milton gives you—

"Devil with devil damned,
Firm concord holds; men, only, disagree."

A HINT TO HOUSEKEEPERS.—Kerosene explosions are getting to form a considerable proportion of accident items. Now, true kerosene is not explosive. The kerosene which does explode is that from which the benzine is only partly extracted. Never allow any kerosene to be used in your family until you have tested it by the following simple formula: Pour a little into a saucer, and plunge a lighted match into it. If it ignites with a puff, have nothing to do with it. Safe kerosene will extinguished the lighted match at once.

The man who never told an editor how he could better his paper, has gone out west to marry the woman who never looked into a looking-glass.

Satisfied.—Many housewives who have been using Soda for years, have become satisfied that D. B. De Land & Co.'s Best Chemical Saleratus is better for all purposes than Soda, and therefore cannot be induced to use Soda or any other brand of Saleratus.

The Best and Cheapest Horse and Cattle Medicine in the World!

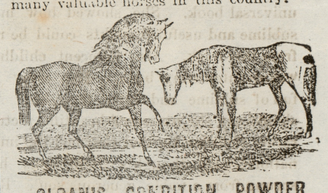
**WARNER B. SLOAN'S IMPROVED CONDITION POWDER**

THE GREAT STANDARD MEDICINE

For Horses and Cattle.

*Used throughout the United States and Canadas during the last 23 years.*

For the cure of the various Diseases to which Horses and Cattle are subject; such as Founder, Distemper, Hide Bound, Loss of Appetite, Inward Strains, Yellow Water, Fistula, Poll Evil, Scratches or Grease, Mange, Inflammation of the Eyes, and Fatigue from Hard Labor; also, Rheumatism, (commonly called Stiff complaint), which proves fatal to so many valuable horses in this country.



**SLOAN'S CONDITION POWDER**

Has the largest sale of any Horse and Cattle Medicine in this country. It is composed of herbs and roots, and for mildness, safety, certainty and thoroughness, stands pre-eminently at the head at the list of *Horse and Cattle Medicines.*

It carries off all gross humors, prevents horses from becoming stiff or foundering, purifies the blood, loosens the skin, and gives it a smooth and glossy appearance cleanses the water and strengthens every part of the body. It is also a safe and certain remedy for coughs and colds, which generate so many fatal diseases.

The Cow requires to be supplied with an abundance of food—not to make her fat—this is not desirable, but to keep up a regular secretion of milk, and all owners of cows will find by giving them

**SLOAN'S CONDITION POWDERS**

twice a week, a large increase in quantity and quality of milk and cream. It carries off all fever and impurities of the blood. The effect is seen throughout the season by a rich and abundant flow of milk.

The farmer is beginning to be aware of the valuable properties of **Sloan's Condition Powder,** in promoting the condition of his sheep and preventing many of the diseases of all the domesticated animals.

A fifty cent package of **Sloan's Condition Powder** put into a barrel of swill is better than a bushel of corn to fatten a hog, and is a certain preventive of Hog Cholera, Blind Staggers, and other diseases common among hogs.

**CAUTION.**—To protect ourselves and the public from being imposed upon by worthless imitations, the genuine will bear the *fac simile* signature of the proprietors on the wrapper.

PRICE 25 & 50 CTS. PER PACKAGE.

For sale by Druggists and Merchants everywhere.
